What is the Home Support Program?

The City of Burnside offers a range of services, accessible in your own home, designed to maintain your independence and good quality of life.

If you are having difficulty with day-to-day tasks, require support to continue living independently and improve your health and wellbeing then the Home Support Program may be able to assist.

We are here to work with you to develop plans to achieve your individual goals and continue living on your own terms. Offering a comprehensive range of services that will enable you to keep enjoying your independence and maintain control over your own life. Our team will help you navigate the services that might benefit you.

Whether you'd like to share the load in the garden, have someone accompany you running day-to-day errands, or would simply appreciate a hand getting out and about to enjoy some of the social activities you love, the City of Burnside Home Support Program is here to offer you services that suit your personal needs.

My Aged Care

The City of Burnside Home Support Program is funded by the Department of Health and Aged Care, Commonwealth Home Support Programme (CHSP). Eligibility for CHSP funded services is determined by My Aged Care.

My Aged Care is the single entry point for all government subsidised aged care services.

To be eligible for CHSP services, you must be aged:

- 65 years or older (50 years or older for Aboriginal or Torres Strait Islander people), or
- 50 years or older (45 years or older for Aboriginal or Torres Strait Islander people), on a low income, homeless, or at risk of being homeless.

My Aged Care will assess which types of services you are eligible for and provide you with approvals for these services. Once you have the approvals, you can then choose the City of Burnside as the provider of your services.

The City of Burnside Home Support team can assist you to navigate your way through aged care services, including making a referral to My Aged Care with your consent.

If something does go wrong, the Home Support Program will:

- Learn from the experience and make improvements to our service and your care.

Changes in Your Health

We understand that your health and support needs can change at any time. If you have had a recent hospital admission, fall or other change in your health and you are finding day to day tasks more difficult, then we may be able to assist you. Please contact our team to discuss how we can help you or connect you to the services which you may need.

Wellness Approach

The Home Support Program promotes a wellness approach in all services. We listen to what it is that you want to do, focus on your skills and abilities and tailor services to your unique needs and goals. A wellness approach encourages you to keep active and involved by working alongside your support worker to do a task together rather than having tasks done for you.

Staying Safe

Staying healthy and safe is important for everyone. Colds, COVID 19, influenza and gastroenteritis are contagious. If you have any of these viruses or symptoms please refrain from attending group activities, stay at home and seek medical attention. If you are receiving services in your own home please kindly advise the Home Support Program so that, if necessary, alternative arrangements can be made.

Emergencies

If there is a medical emergency while you are attending or receiving Home Support Program services then staff and volunteers will phone emergency services on 000. Your nominated emergency contacts will also be notified. Please let us know if you have any specific preferences or Advanced Care Directions you would like emergency services to be informed of in the event of an emergency.

Incident Reporting

The Home Support Program has a responsibility and duty of care to keep you safe during the delivery of all its services. If you are aware of any incidents, unsafe practices, equipment or behaviours of any of our staff, then please contact the Home Support Program as soon as possible. You will be provided with the support you need to feel safe.

All incidents reported to the Home Support Program will be investigated thoroughly and measures put in place to prevent the incident happening again. Serious incidents will be reported to the Aged Care Quality and Safety Commission (Serious Incident Response Scheme 1800 951 822) and other authorities such as the police where appropriate.

Extreme Weather Events

During extreme weather events, such as a heatwave, it is important to take some extra steps to make sure you are prepared and remain safe during the event. Keeping hydrated, staying indoors with air-conditioning on, wearing lightweight clothing and keeping in contact with family and friends are important. If you would like to receive a daily welfare call during a heatwave, you can register for free with Telecross Redi on 1800 188 071 or telecrossredi@redcross.org.au.

During extreme and catastrophic fire danger days, Home Support Program services may be modified or cancelled. We will contact you if this occurs and ensure you are still able to access essential services.
