**Artists of the Month:**

**October**: Leanne Hamilton-Kinnear - Verdigris Metalwork

“I have had a passion for art since a young child. Being the first daughter of a blacksmith / boilermaker / mechanic father and a florist / painter / poet mother I originally studied and worked as a mechanical engineer. However there was no getting away from embracing my creative side, so I turned a career corner into studies to become a design and technology teacher. Today I am a Lecturer and Workshop Instructor at the University of South Australia in the Design and Technology course for pre-service teachers and academic staff.

In my own arts practice I work primarily with copper, but also steel and recycled metals, making sculptural pieces and wall hangings for both indoors and outdoors, as well as custom water features. I use both oxide-acetylene welding and brazing as well as MIG and plasma cutting, with most work hand cut and formed using traditional metalworking pieces. As such each piece is always unique and individual. I look forward to my showcase at Pepper Street in October.”

**November**: Caroline Walker-Grime - Pottery

“I hope you enjoy my display.”

Norwood Morialta High School Art, Design and Media Student exhibition

1 - 9 November

Opens:
Friday 1 November 3 pm - 5 pm
Opening Speaker:
Mr Max Mastrovasas, Former Teacher

Throughout this year, students in Years 8 to 12 have been creating works in Art, Design and Media using a range of subjects as inspiration. By analysing the works from historical and contemporary artists, film makers and designers, students have shown their creativity when applying practitioner’s techniques, within their own artistic vision. Many of the students have attended workshops, exhibitions or had guest presenters, who are professionals in their industry. To guide them in the creation of their works, developing a range of new techniques and adding to the quality of the work they present. Senior students have also produced pieces from workshops they have attended at the Adelaide Central School of Art and the Art Gallery of South Australia. Students have used a range of mediums including painting, mixed media, sculpture, digital media, design and multimodal works. Working under the broad theme of ‘Perceptions’ to help guide their personal visual aesthetic, creating a variety of works that are unique, moving and demonstrate their skills as budding artists or designers.

Students have created works interpreting the theme, whether it is their own personal identity, intercultural relationships or links to the environment. Adolescents are at a stage where they are becoming more self-aware while forming their own identity, so this is an ideal time to study perceptions as they explore how they relate to themselves, contemporary culture and the world.

At Norwood Morialta High School, students develop a passion for the arts and are encouraged to develop their creativity and critical thinking. The exhibition provides students with an opportunity to develop their creativity in tangible ways and form connections with the arts community allowing them to flourish as they enter a world of great change.

**Exhibition concludes on Saturday 9 November at 5 pm.**
