## Watering Trees

Given the record breaking dry first half of summer, residents are reminded that even with increased watering of reserves and trees, the weather has taken its toll.

Council has increased watering on the majority of our reserves to try to maintain them at a reasonable level but in some cases some reserves have suffered.

Residents could assist with our young street trees by giving them extra water.

Council water over 2,200 trees that are up to 4 years old over a 7 to 10 day cycle, starting early morning including over public holidays and during extreme heat days.
