## Artist of the Month June

Jessica Goode -  
Digital Printmaker  
5-30 June

From my earliest years I have loved art and endeavoured to bring it into my everyday life, so it was natural that, after attending the Ruth Tuck Art School for many years, I chose to study for the degree of Bachelor of Visual Arts and Applied Design, majoring in print-making.

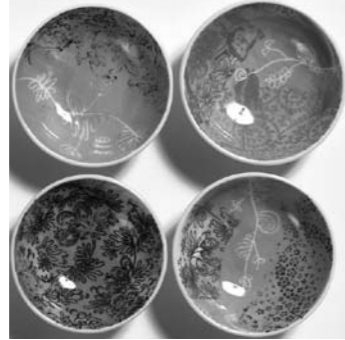

In the final year of that course I became fascinated with the human foot as a subject for study, including the footwear we use to protect and to adorn it, and the uses and abuses to which we subject it. As I have suffered a foot problem from childhood I used that personal experience as a catalyst to explore the treatment we give to what has, unfairly, been called "our ugliest appendage". My images include the damage done by ballet dancing, the corns and hammer-toes arising from high heels, foot-related medical issues, and the mutilation caused by Chinese foot-binding.

My aim was to place footwear in exotic or unusual juxtapositions which would cause the viewer to see these very necessary accessories in a different light.

I hope you can 'step out' to see my work!"

## Artist of the Month July

Erin Lykos – Ceramics  
3-25 July

"I have always had a passion for art & design, and when I started working with clay I realised the possibilities were endless.

From completion of a Bachelor of Visual Arts & Applied Design at the Adelaide Centre for the Arts, to being selected as a design associate in the Ceramic Studio at the Jam Factory Contemporary Craft and Design for a highly valuable 2 years, I now work from my home studio.

Continuing to experiment with and combine different techniques, for the past two years my work has been predominantly brightly coloured functional pieces, aimed at creating pieces to brighten a home.

In September and October 2008 I undertook an artist residency in China's porcelain capital, Jingdezhen. This experience has been highly influential in my recent work. The range I am displaying at Pepper Street is an exploration into some of the techniques, materials & tools I brought home from the experience of China. By combining coloured slips, underglaze transfers & a technique called sgraffito I have created a layered effect which is a new & exciting direction for me.

I look forward to bringing my work to you at Pepper Street in July!"
