

chat with local

Chat with a Local

Chat with a Local program connects people from diverse backgrounds with volunteers from the community. It aims to help participants practice English conversation and learn about Australian culture.

Participants and volunteers meet weekly and chat one-on-one informally. The initial session takes place in the community centre at City of Burnside. During this first meeting, the volunteer explains when and where to meet, the duration of the sessions and his/her expectations.

As participants, it is important that you meet volunteers' expectations.

Date:

Participant details

Name:

Phone number:

Email:
